Dentistry.

C. Francis Barnard, M. D.
SURGEON DENTIST.

DR. BARNARD HAS HAD FOR several months the "Perkins Hyatt" or "Celluloid Base," the newest and latest material adapted to the mounting of whole sets of teeth; he is also using "Whalebone-Rubber," which is rapidly supplanting, for single dentures or partial sets the best vulcanites of the last 25 years.

We cheerfully add Dr. B's card to our columns, convinced that his good taste and judgment, united to natural skill and ingenuity, aided by an extensive practice of upwards of thirty years, render his services more valuable and reliable than those of any other Dentist on the Sound, Coast or Island.

Dr. B's large experience may be readily seen in the happy and natural expression given his patrons by his life-like insertion of artificial Teeth.

The public may rest assured of patience, gentleness and undivided attention while under the Dr's hands, and that he will ever strive to be foremost in adopting helps and hints touching his own interest and that of his patrons.

Daily British Colonist.

THURSDAY MORNING, SEPT'R. 5TH, 1872.

L. P. FISHER, 20 and 21 New Merchants' Exchange, is our authorized Agent in San Francisco.

Federal Faith.

A great deal too much, as it appears to us, has been made of the fact that the Federal expenditures in this Province have not yet been made. Some politicians have ventured to allude to the various appropriations as mere empty promises, appearing in the Estimates only to be revoted next year; and the members of the Federal Government have come in for pretty severe criticism for attending to their elections first and the interests of British Columbia afterward. Of course a good deal of allowance should be made for electioneering utterances. People sometimes say things for the purpose of making a political point against an opponent which would not be said at another time and under other circumstances. Yet it is just possible that a wrong impression may have been formed and undue prejudice against the Federal Government created; and we feel called upon, therefore, to offer a few observtions upon the subject. And, first of all, let us remind the people of British Columbia that they should accustom themselves to think of this Province as a part of the Dominion, having a common interest with all the other parts. Let them endeavour to cultivate a national feeling and learn to look at all such matters from a national standpoint. The local interests of British Columbia are much, very much to us. But they are not everything. We must look to the common interest of the whole Dominion, as well as to that which immediately concerns our own Province. Was it not the interest of the Dominion that Ministers should look well to the elections? And what of British Columbia? Surely she should be the last to taunt the Ministers with making their election sure, even at the sacrifice of delaying the commencement of our local public works. It must be remembered that the election followed close upon the heels of the session. Let us suppose that the Ministry had made our public works paramount, and lingered at Ottawa to the neglect of the elections; and suppose, further, that they lost their elections and let the Grits into power,—would the Dominion gain by it? Would British Columbia benefit? Better far that our public works should be delayed a twelve month, two years, three years, than that such a thing should happen to the country. There is no part of the Dominion more interested in the present Government winning the elections than British Columbia is; and she ought, therefore, to be the very last to find fault with the Federal Ministers because they have made the elections their first consideration. We know and feel that this Province has suffered from the delay which has occurred in commencing much needed public works and organizing certain departments of the public service; but we can readily appreciate the reasons for the delay. Mr. Nathan stated at the hustings, on Tuesday week, that a telegram had been received from the Dominion Government, stating that British Columbian affairs would be attended to in a fortnight. That telegram was from Sir John A. Macdonald, and it was the result of urgent representations made by Mr. Nathan. There is, therefore, no reason to doubt that, whenever the elections shall have been got through with, which will probably be about this time, our affairs will be attended to and the various public works pushed forward with the utmost energy. In making these remarks, we do not desire to be understood as reflecting upon those who have sought to make a political point by alluding to the delay which has occurred in giving the Province the benefit of the appropriations made on her behalf. Our object is to prevent misconception and consequent prejudice growing up in the public mind by showing that the Federal Government are acting in good faith toward the Pacific Province.

The Provincial Exhibition.

Thirty-five days more and the first regular Provincial Industrial Exhibition opens in this city. Will the farmers, dairy-women, producers and manufacturers make a note of the fact? The Exhibition bids fair to be superior to, and more attractive—shall we add more useful?—than anything of the kind hitherto attempted. Look at the Prize List on our first page. The prizes are not quite so high in some instances as could be wished; but the list is tolerably comprehensive. And it is not so much the amount of the prize, after all, that the competitor looks to. It is the distinction which begets the pride to excel which is really useful. Organized effort will conduce to a more general representation of distant districts than has ever been attained before, giving the Exhibition a more truly Provincial character. The relaxation of Customs regulations obtained from the Federal Government will greatly encourage and facilitate competition from the other side of the water. Some people hold narrow views on this point. They question the propriety of throwing the Exhibition open to foreign competitors. Situated as British Columbia, and especially this part of it, is at the present time, we think the Committee acted wisely in inviting competition from the neighboring American Territory. Might we venture to express the hope that the Committee will be more successful in what may, perhaps, be designated the judicial part of the business. Past experience in that department has not been quite as satisfactory as could be wished. We are conscious of touching the tender spot of competitive exhibitions. To expect all to be satisfied with the decision of the Judges would, indeed, be to display ignorance of human nature. But it is not too much to expect that the Judges will be so chosen and will so conduct their very thankless and delicate part of the business as to give no reasonable ground for such remarks as past exhibitions have occasioned. This is the first, properly so-called, Provincial Exhibition. It is the first held under the present organization. It will be the first since Confederation. Every member of the community is interested in its success. Let everybody help to make it so.

TRUNK SEARCHING ON THE CANADA FRONTIER.—At the Suspension Bridge not long since a Canadian customs officer got his eye on a suspicious-looking piece of baggage. To a bystander he said, "Whose trunk is that?"

"Mine sir."

"What are the contents?"

"Nothing wrong, sir."

"But I want to know what is in that trunk, and I will."

"There is nothing in it, sir, that is contraband; and I tell you the truth when I say so."

"Well, sir, open that trunk at once, or I will put you off the train and place you under arrest."

"I don't think it is hardly fair, sir; but I suppose I must comply with your demands. I will do this and no more. I will unlock the trunk, and if you choose to open it you do so at your own risk."

"Not much risk in that, I imagine," says the conductor, and the trunk being unlocked, he raised the cover, to be confronted with the erected heads, gleaming eyes and forked tongues of numerous serpents, whose dazzling colors and complex convulsions struck him dumb with amazement.

"Shut it, for God's sake!" said he, gasping for breath; and the agent and snakes arrived in good order.

WE wonder what induces David Green, the Clothier, of Government street, to advertise, as everyone is aware that he keeps the best fashionable made clothing store north of San Francisco. * *

NOTICE.

HOUSE OF ASSEMBLY, 2d Aug., 1872.

Extract from Rules relative to Private Bills.

50. All applications for Private Bills, properly the subject of legislation by the Legislative Assembly of British Columbia, within the purview of "The British North America Act, 1867," whether for the erection of a Bridge, the making of a Railroad, Turnpike Road, or Telegraph Line; the construction or improvement of a Harbour, Canal, Lock, Dam, or Slide, or other like work; the granting of a right of Ferr; the incorporation of any particular trade or calling or of any Joint Stock Company; or otherwise for granting to any individual or individuals any exclusive or peculiar rights or privileges whatever, or for doing any matter or thing which in its operation would affect the right or property of other parties, or relate to any particular class of the community; or for making any amendment of a like nature to any former Act,—shall require a Notice, clearly and distinctly specifying the nature and object of the application, to be published as follows, viz:—

A notice inserted in the British Columbia Gazette, and in one newspaper published in the district affected, or if there be no newspaper published therein, then in a newspaper in the next nearest District in which a newspaper is published.

☞ Such notice shall be continued in each case for a period of at least six weeks, during the interval of time between the close of the next preceding Session and the consideration of the petition. ☜

51. Before any Petition praying for leave to bring in a Private Bill for the erection of a Toll Bridge is presented to the House, the person or persons intending to petition for such Bill shall, upon giving the notice prescribed in the preceding Rule, also at the same time, and in the same manner, give notice of the rates which they intend to ask, the extent of the privilege, the height of the arches, the interval between the abutments or piers for the passage of rafts or vessels, and mentioning also whether they intend to erect a drawbridge or not, and the dimensions of the same.

(From the Herald.)

The Indians are preparing for a grand "potlatch."

A large panther has been annoying the farmers on the North Arm.

Mr, J. T. Scott had returned from a prospecting expedition south of Hope, and is understood to have discovered valuable mineral deposits of some sort.

The Chilliwhack and Sumass farmers express the deepest regret at the death of Capt. Irving.

The harvest in all the settlements has been very abundant and well secured.

Chadsey's mill will soon be ready; and the best of everything is being put into it, as he is determined to turn out first class flour.

The Methodist Camp Meeting at Chilliwhack commenced yesterday. Great preparations were being made, and the attendance was expected to be large.

It is understood that Mr. Stevens, C. E., will immediately proceed to make surveys in the District.

The Municipal Council, on Monday evening, passed the Tax By-Law, and adopted the Tax List, which is exhibited for revision.

The "Obstructionist" (Councillor Suter) appears determined to play out his role. On Monday evening he attempted to make out a legal point against the Council of which he is a member. He does not appear to have made much headway.

The Board of School Trustees received a communication from the Superintendent of Education informing them that Mr. Burr had been invited to resign and had been offered another appointment.

COLLAPSE OF THE ATLANTIC AND PACIFIC RAILROAD SCHEME.—This scheme has failed and the Committee of one hundred in San Francisco, to whom its interests were confided, has been dissolved. The vote on the question of adjournment sine die was taken amidst great confusion, and resulted in 52 ayes and 19 noes, and the Committee of 100 was declared out of existence. T. B. Lewis (formerly of British Columbia, and now a wealthy San Franciscan) then sprang up and commenced shouting excitedly, "Fellow citizens, fellow citizens of San Francisco, I have something I want to be heard upon," etc. He proceeded for some minutes denouncing the late Committee as a fraud, saying that it was gotten up to aid the Atlantic and Pacific scheme; that as soon as it was found that it was going to benefit another interest, the number voted to adjourn and ran away like a set of cowards. He had advanced $200 to send the Committee to Washington, and wanted to know how he was to get his money back. He was interrupted by a constant running fire of jokes, jeers and laughter, and by the time he was through the hall was emptied.

FOR the quintessence of double distilled rascality, commend us to San Francisco officials. At a recent meeting of the Board of Health of San Francisco it appeared that Dr. F. H. Engels, recently apothecary of the City Hospital, had long been in the habit of stealing iodine, quinine and other drugs from prescriptions made by the attending physicians, and had offered over eight hundred dollars' worth of the stolen material for sale to a New York firm at about half its market value. The attending physicians say they were "surprised to find their patients neither died nor recovered" so soon as they expected. One should think they would have died much sooner than was expected, but what shall be said of this monster who weighed against the human lives that lay in his hands the paltry value of medicines prescribed to sustain them?

THE WEEKLY COLONIST.—This leading newspaper on the northwest coast comes to hand very much enlarged and improved in appearance. It is now a shade larger than the Weekly Oregon Herald, and is filled with reading matter, its columns being almost entirely devoted to local and telegraphic news, trenchant editorials, and choice selections in the shape of miscellaneous matter. As a newspaper for the business public, and for the family, not only for British Columbia but for the Puget Sound country too, there is none north of San Francisco which is its superior. It is deserving of a wide-spread circulation. The price is $5 00 per annum.—Seattle Intelligencer.

CRYSTAL PALACE CIRCUS.—Yesterday the matinee was well attended and the performances were greatly applauded. In the evening the tent was again filled. The wonderful trapeze feats of the Ducrot Brothers, the splendid riding of Miss Jeal and Mrs. Ryland, and the witticisms of Dave Long and Charley Nickerson, the inimitable clowns, were the theme of general admiration. This evening will be positively the last, as the company are under engagement to play at Port Townsend to-morrow; so give them another full house to help them on their journey.

THERE are now three bodies of drowned persons in the harbor somewhere between the mouth and the Gorge, viz: That of the Prussian drowned by the collision between the Maude and North Pacific steamers; the little halfbreed boy drowned from Rhodes' wharf; and the man Hawkins, drowned on Sunday last. Ought not the Mayor to take some steps to recover the remains?

THE Crystal Palace Circus Band will play at the Firemen's Ball to-night, Mr. Ryland having kindly volunteered their aid in consequence of the accident to Mr. Haynes. In order to enable the band to attend the ball the entertainment at the Circus this evening will commence at 7 o'clock.

TAXIDERMY.—A magnificent head of a Cariboo, with branching, shovel-like horns, shot near William Creek by Col. Lane and stuffed by Mr. Bushell, may be seen at the Lane & Kurtz office, Government street. The artist has preserved the expression of the animal when alive.

Order of Firemen's Parade To-Day.

The Deluge and Tiger Engine Co.'s and U. H. & L. Co. will meet at 2:15 o'clock p.m. at the corner of Government and Yates streets, and receive the Chief and Assistant Engineers and invited guests; will march down Government street to the U. H. & L. Co.'s house, receive the President and Board of Delegates, the officers of the Deluge Engine Co., N. 1, and officers of Tiger Engine Co., No. 2,; will then hand over their engines to the Department; then march up Government street to Fort street; up Fort street to Broad street; along Broad street to the Council Chambers, where they will be inspected by the Executive Council and His Worship the Mayor and City Council; along Broad street to Johnson street; down Johnson street to Wharf; along Wharf street to Fort; up Fort street to Government, and leave the U. H. & L. Co.; along Government street to Yates, leave the Deluge Engine Co. at the corner of Yates and Government streets; then Tigers proceed along Government street to their Engine house on Johnson street.

In the evening there will be a Ball at the Alhambra Hall, to commence at 9 o'clock p. m.; supper to take place at 12 o'clock at the St. Nicholas Hall, which was kindly granted free of charge.

The circus band will, by the kind permission of the proprietor, head the procession.

FIRE INQUEST.—The inquest on the fire which took place on View street on last Sunday week was partially held yesterday before Judge Pemberton and Messrs. H. Mansell, S. Harris, G. Stevens, C. Gowen and J. York as jury. It was postponed until Tuesday next. Mr. Geo. Stevens, who lives a few doors from the scene of the fire, said that he heard the alarm of fire and when he came out saw smoke issuing from the house. Mr. C. Gowen stated that he noticed smoke issuing from the house, and finding the door fastened he burst it open. On going into the first room he saw no signs of fire, but in the second room he found the ceiling on fire. There was no fire on the floor on in the grate, nor did it appear as if there had been any for some time. He saw no one coming out of the house. Some boys had been seen coming out of the house and the inquest was postponed to bring up those, as witnesses, who had seen the boys come out.

INTERNATIONAL CONTEST.—The match between the Base Ball Clubs of Olympia and Victoria will be played at Beacon Hill to-morrow, commencing at 10 o'clock a. m. The following are the Victoria team: E. McQuade, E. Nagle, A. Wright, W. G. Cameron, R. Hall, T. Partridge, G. Beckford, H. Price, D. Moses. W. A. Calhoun, Umpire; G. W. Cohen, Scorer. With every prospect of fine weather, the occasion will be an interesting and pleasant one. The Washington boys will arrive by the North Pacific to-day.

THE PROPER TONE.—A late number of the Ottawa Free Press has a sensible article on "Our Western Provinces," of which the following is the concluding sentence: "We contend that those who pretend to underrate the value of our magnificent Western possessions, display a narrow and sordid spirit calculated to do no good to the country, and a lamentable ignorance of the real position and prospects of the country."

DESPOTIC.—The City Council have done a very despotic thing. They have passed a resolution to cause the property holders along Government street beyond the settled part to lay a ten-foot sidewalk, thereby putting owners of unoccupied lots to a very great and needless expense. A three-foot walk would answer every purpose, and the Councillors are unreasonable in making the demand,

ACCIDENT.—A brother of Mr. C. J. King, on Tuesday evening, was riding one horse and leading a second. It is supposed that the former bit the latter; but, at all events, the latter commenced kicking and struck Mr. King on the knee. Whether the knee-cap is broken or not is unknown on account of the great inflammation which ensued. Dr. Helmcken is attending him.

DELUGE COMPANY.—On account of the paucity of the meeting last evening the nomination for Chief Engineer and Delegates was postponed till Monday evening when the regular meeting will be held. The Company agreed to meet at parade to-day in full uniform with the exception of caps without covers.

THE COLLISION.—The matter of the collision of the steamers Maude and North Pacific has been arbitrated. The cost of repairing the damages incurred through the collision by both boats and the cost of arbitration were ordered to be added together and each owner directed to pay one-half of the total sum.

ANOTHER ACCIDENT.—Mr. Wm. Haynes, of the Willows, Cadboro Bay, was thrown from his horse on the Oakland Road yesterday and was found lying insensible by Lieut Ballantyne, R. N. Dr. Davie was called to his assistance. It is said his recovery is doubtful.

THE steamer Enterprise arrived from New Westminster with the following passengers: Rev. Jamieson, Dr. Chisholm, Messrs. Pope, Burns, Reid, E. Stevens, Pearce and Ferry.

KIND.—The Circus band have kindly volunteered their services for the parade to-day, in consequence of the accident to Mr. Haynes, whose band was to have officiated.

POLICE COURT.—The case of Cartwright vs Wales, a summons for $20, postponed from 30th August, was heard yesterday and judgment given in favor of plaintiff for $4 25.

THERE was no meeting of the City Council last evening on account of the occupation of the Chambers by persons giving a general cleaning after repairs.

THE bark Rose M. has arrived at Burrard Inlet. She was ten days knocking about the Gulf between Victoria and New Westminster.

Weekly British Colonist.

Copies of the WEEKLY BRITISH COLONIST may be had at the Publication Office and at the Book stores to-day. It contains the latest political and other news—including the grand victory won by the Party of Union and Progress in Victoria District on Monday. Single copies a "bit." By the year, $5. Part of a year at the same rate.

ONLY one fireman came down from New Westminster to take part in to-day's parade and ball. Eight or nine are expected from the Sound.

SURVEY.—Mr. Stevens returned yesterday by the Enterprise from a survey of the Kamloops district for the Local Government.

CAPTURE.—The police, after a spirited chase last night, captured two marines who had overstaid their leave.

THE PROPELLER CALIFORNIA was advertised to sail from Portland yesterday for Puget Sound and Victoria.

THE bark Avenir, from Burrard Inlet for a South American port, passed down yesterday.

THE PRINCE ALFRED arrived down on Monday.

Soils—How Exhausted.

We frequently see in Eastern agricultural journals long dissertations on the subject of deep and shallow plowing, and in some cases the attempt is made to show that the general deterioration so common to most of the soils of those long cultivated parts of the country is owing to a persistent course of shallow plowing. It is a mistake to imagine that this alone has produced the unwelcome result, rendering large districts of country unfit for the culture of wheat, which fifty years ago gave an average of from fifteen to twenty bushels to the acre. If shallow plowing has had the effect to lessen the annual yield from fields devoted to constant tillage, without the return of some fertilizer—which we will not dispute—it might be inferred that we believed had the field been deeply plowed there would have been no deterioration. We believe no such thing; because experience has shown that though deep plowing serves almost invariably to increase the product, it is equally at the expense of the fertility of the soil; the only difference is, the one, by shallow plowing and half a crop, has exhausted the soil to half the depth that another field is by a system of deeper tillage. So that without some renovating process or the application of fertilizers, or something besides simply deep plowing though large crops may be produced for the time being, it is only at the expense of the deeper exhaustion of the soil. It is idle, then, to harp upon the favorite theory of many that shallow plowing alone has caused the sterility too often met with in the older sections of the Union. It is an injudicious cultivation quite apart from either shallow or deep plowing that produces barrenness. No soil, however deeply plowed, can forever maintain its pristine fertility under constant cropping, without a return in some measure of the elements that the crop produced extracts therefrom. Upon this important point in good husbandry too little attention is paid. Shallow plowing and constant cropping without manuring have very aptly been termed the "skinning" process; but deep plowing like circumstances takes not only "skin" but the very tallow from the soil. We shall continue our remarks on the rapid impoverishment of the cultivated lands of California in future numbers.—Rural Press.

Double Suicide at Virginia.

From the Gold Hill News, August 16.

Two women of the town committed suicide at Rose Benjamin's place, corner D street and Sutton avenue, Virginia, yesterday afternoon. They were known as Mrs. Thompson and Hattie Willis. They had evidently formed the resolution to die together, and thus get rid of all their worldly troubles, and to this end they procured what is thought to have been a mixture of morphine or laudanum and chloroform, and retiring to a lower room of the house, where they would not be likely to be disturbed, took the fatal dose. Both have attempted suicide before on one or two occasions, but were saved through prompt treatment. This time, however, they were determined that nothing should prevent them. The following note was found in the bedroom of Mrs. Thompson:

I hope we have made a sure thing of it this time, as we are tired of living. Good-by, everybody. HATTIE WILSON,
KATIE THOMPSON.

An unusual noise proceeding from the room where they were, attracted the attention of the other occupants of the house resulting in their being found a little after 2 o'clock p. m., lying upon the floor, apparently just as they had fallen when overpowered by the fatal poison. Abundant medical assistance was at once summoned, and the doctors did all possible to save the lives of the two unfortunates, but without success, for the youngest, Hattie Willis, died about 5 o'clock p. m. She was between 16 and 17 years of age, and came to Virginia from San Francisco a few months ago with the Amelia Dean Minstrel troupe. Her real name is said to be Belle Bateman. Mrs. Kate Thompson died about half-past 11 o'clock. She was only 21 years of age, and was also an American woman. She is said to have had considerable trouble with her husband, and was two or three weeks ago employed waiting upon the tables and otherwise working at a boarding-house on the Divide. Since then she has adopted the mode of life from which her sensitive soul sought and found relief at last in death. May the eternal rest and peace so earnestly sought by these two weary ones be kindly accorded to them in the great hereafter, through the infinite mercy of the Almighty Creator, their truest friend.

NEW YORK, Sept. 3—Yesterday evening near Westbury station, Long Island R. R., a train ran over a carriage containing two ladies, a boy, 7 years old, and a girl of 5 years. All were killed or fatally injured.

A Welsh paper says Henry Stanley's real name is John Rowland; that he was born in Denbigh, Wales.

LOUISVILLE, Sept. 3. — The National Democratic Convention met to-day and was called to order by Blanton Duncan.

NEW YORK, Sept 3—The Tribune says that the nomination for Lieut. Governor and Governor of New York are conceded to the Democrats. It is surmised that an effort will be made to induce Judge Church to accept the nomination.

The "Sun" argues that Horatio Seymour's nomination is the only one to insure success.

LOUISVILLE, Sept. 3.—The declination of O'Connor seems to be final; but there is a strong disposition to nominate him and put the responsibility of refusal upon him. If, however, this should not be done, John Quincy Adams will likely be the nominee for President.

BOSTON, Sept. 3. — Passengers by the steamer New England, which was wrecked while on a passage from St. John to this port, state that she ran ashore while steaming at full speed in a dense fog. The passengers, after being landed at Eastport, were forwarded to the railway station and left to shift for themselves; their passages were paid through. After the wreck the crew developed all their energies in saving the cargo, and no attention was paid to the valuable baggage of the passengers.

Europe.

LONDON, Sept. 3—The eastern end of the great Cathedral of Canterbury was badly burned this morning. The fire caught the roof over the shrince of Bishop A'Beckett, by upsetting a brazier used by the workmen in repairing the roofing. There was great excitement, and the whole garrison turned out to assist the workmen. There was great delay in checking the flames owing to a scarcity of water. There was considerable damage to the structure and contents done. The fire was extinguished after destroying 150 feet of the roof.

Fiji.

SHOCKING SCENE AT AN EXECUTION — THE VICTIM ESCAPES.

The Fiji "Gazette," of June 1st says:—"The dreadful event of the early part of this week, through, we are bound to say unforeseen circumstances which no living man could have foreseen, offers opportunity for an illustration of the horrors of capital punishment. It had been determined by the Government that Antonio Fraos, convicted of the murder of Muir, on board the Marion Renny, should die. May 27th at seven was fixed as the day and hour for the execution; but owing to the inability of the sheriff to attend, the execution was deferred until next day, May 28th. At 6 a.m. on that day an enquiring crowd assembled, and as the wretched convict, attended by Mr. Nettleton, Inspector Martin and the executioner appeared upon the scaffold, his immediate death appeared imminent. He was pinioned, and had on his head a white cap. The executioner (Latham) had a black crape on his face, and he proceeded to manipulate the rope, which it was quite apparent was not adapted for the purpose, as he could not make the knot render — not when he tied with all his might. Nevertheless he adjusted it loosely around the neck of the culprit who kept his position with stoic indifference, and at a given signal drew the bolt, the sufferer falling at least six feet, and remaining suspended for the first minute or two quiescent. At the end of that time there was a convulsive motion of one foot, then some horrid groans were heard, and then in an unearthly noise Franes cried out, 'Oh God! kill me! shoot me! or cut me down; I cannot die this way!!' This was heard by those near—some actually fainting as the horrid sound greeted their ears. Panic-stricken, Sergeant Harding at once complied with the request of the culprit, ascended the scaffold, cut him down, and he fell with great force to the ground. He was then put on his feet, and advanced a couple of steps as the cap was removed from his face, saying, 'I wish to die; I have seen heaven! For God's sake hang me! But not that way; I cannot die that way!' He was then carried into the gaol and laid out on a stretcher. He has since recovered, suffering little from the terrible wrench his neck must have had. We understand that the King has now reprieved him, and that he will be kept in close confinement for life. Previous to his suspension, he made a written confession, stating that he was prepared to die, and attributed his sin to drink."

THE undersigned begs to inform his friends and the public that he has just received, ex-Prince Alfred, a fine assortment of fashionable clothing—in addition to his stock.—DAVID GREEN, Government street.

Grant Can't Govern the Country.

Charles Sumner says, "Grant can't govern this country," and quotes Stanton to prove it. The circumstances of the case remind us of the old story about the man in jail. He entertained the belief that he was illegally confined, and so sent for a lawyer to consult about the matter. After listening to the prisoner's story, the lawyer said with a confident smile:—

"Pshaw! man; they can't put you in jail for that—"

"Can't they though?"

"Certainly not; the thing's preposterous. They can't put a man in jail for any such action."

"But they have, though," urged the prisoner, who fully agreed with the lawyer that they could'nt do it; but was unable to get it out of his head that he he was in jail nevertheless.

"I tell you, my dear fellow, it is impossible; they can't imprison you on a charge like that; it's against the law."

"But they HAVE done it," cried the prisoner, stubbornly, and with rising anger, "and, confound 'em, here I am. I want to get out."

"But I say they can't do it. If you understood the first thing about law you would see they couldn't yourself. Blackstone says—"

"Oh! Blackstone! Ain't I here, and haven't I been in here for the last six weeks?"

"I tell you they can't put you in jail for this," shouted the lawyer, springing out of his chair, and growing excited himself because his client stupidly refused to listen to the points of law in the case.

"And I tell you!" yelled the prisoner, jumping to his feet and dancing round with excitement and exasperation, "they have done it, and I am here in jail, and likely to stay here for all of you!"

Grant has governed the country, is governing it, and may continue to govern it four years more for what we can prophesy. He can't do it though; of course not—[Fat Contributor's Saturday night

English Farming.

Mr. Wall, in an address to the farmers of New Jersey, alluded to the very flourishing state of agriculture in England. He pointed out that in less than a century the production of wheat had risen from 16,000,000 to 100,000,000 bushels. This enormous increase he attributed to the systematic attention to all the requirements of good farming: in the skill and exactness with which the operations are performed; to their careful selection of the best varieties of seed, and to the extensive and prudent use of their barn-yard manure. Nothing is left to casualty or chance. No expectations are indulged that the bounty of Providence, by an unusually favorable season, will atone for their short-comings or neglect. He dilated upon the extraordinary liberality of English farmers in restoring to the earth, by means of purchased manures, all those elements of fertility which are exhausted by cultivation. It is estimated by chemical analysis that wheat absorbs forty per cent. of nutriment contained in the soil. In 1837, the first year in which bones came into general use as a fertilizer, the foreign bones imported were valued at the custom house at $1,500.000, since which time it is estimated that the amount paid for imported bones alone, amounted to $150,000,000. Since 1841, upwards of 1,500,000 tons of guano have been used. Mr. Wall also believed that nothing is more perfect in rural economy than the English farmers' rotation of root and grain crops. He considered that the care which had been bestowed on root cultivation had been the salvation of England.

A regular trade in toads is carried on in Paris. They are sought by vineyard owners for their insectivorous propensities.

BRITISH COLUMBIA.

ESQUIMALT GRAVING DOCK.

THE GOVERNMENT OF BRITISH COLumbia are prepared to receive Tenders for the construction of a Graving Dock at the Naval Station Esquimalt Harbor, under the guarantee provided in Twelfth Section of the Terms of Union of this Province with the Dominion of Canada, which section is in the following words:

"The Dominion Government shall guarantee the interest for ten years from the date of the completion of the work at the rate of five per cent per annum, on such sums not exceeding £100,000 sterling as may be required for the construction of a first class Graving Dock at Esquimalt."

The Dock to be of Masonry, and of not less than the following dimensions:—

Length on floor 370 feet,
Do over all 400 feet,
Width between copings 90 feet,
Do on floor.....45 feet,
Do of entrance.....63 feet.

To afford a depth of water on the sill of not less than 26½ feet at high water springs, and to be substantially constructed to the approval of Government, upon a site to be provided by the person whose tenders may be accepted.

Further particulars as to plans, site, borings, &c, may be obtained from T. A. BULKLEY, ESQ., Chief Engineer to Government, upon application in writing to the Chief Commissioner of Lands and Works.

Tenders must specify the time within which the Dock will be completed, and may be accompanied by drawings and descriptions, showing exact dimensions, materials and mode of construction of proposed Dock.

Tenders are to be sealed, superscribed "Tender for Esquimalt Graving Dock," addressed to the Chief Commissioner of Lands and Works, Victoria, British Columbia, and delivered at his office before noon on the 15th day of November, 1872.

Persons who may consider the above guarantee to be insufficient, are at liberty to tender on the basis of such supplemental guarantee by the Provincial Government or upon such other financial inducements as they may suggest.

The Government do not bind themselves to accept the lowest or any tender.

Each Tender must be accompanied by a Bond from the Contractor, and two sufficient sureties, for the payment of £10,000 to Her Majesty, Her heirs and successors, conditioned upon the due fulfilment of the Tender which it accompanies provided it be accepted within three months from the said 15th of November.

Medical.

Card of Thanks to Dr. Chong.

AFTER BEING TREATED FIVE MONTHS by a white doctor, and spending nearly $300, I was worse than when I first went to him. I had quite despaired of being relieved when I read Dr. Chong's Card in THE COLONIST. I placed myself under his care and in NINE DAYS I was a well man. I write this card to discharge a debt of gratitude I owe to Dr Chong whose charges, I may also say, were reasonable. My complaint was neuralgia. WILLIAM McCORMICK.

FOR DYSENTERY, CHOLERA, AGUE, COUGHS COLDS, &c.

DR. J. COLLIS BROWNE'S
(Ex Army Med Staff)
CHLORODYNE.

IS THE ORIGINAL AND ONLY GENUINE.

CAUTION—Vice-Chancellor Sir W P Wood stated that Dr. COLLIS BROWNE was undoubtedly the inventor of CHLORODYNE; that the story of the defendant, Freeman, being the inventor was deliberately untrue which he regretted had been sworn to. Eminent Hospital Physicians of London stated that Dr J Collis Browne was the discoverer of Chlorodyne: that they prescribe it largely and mean no other than Dr Browne's—See TIMES, July 12, 1864.

The Public therefore are cautioned against using any other than

DR J. COLLIS BROWNE'S CHLORODYNE.

REMEDIAL USES AND ACTION.

This INVALUABLE REMEDY produces quiet, refreshing sleep, relieves pain, calms the nervous system, restores the deranged functions and stimulates healthy action of the secretions of the body without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvelous good effects and wonderful cures while medical men extol its virtues most extensively using it in great quantities in the following diseases:—

Diseases in which it is found eminently useful—Cholera, Dysentery, Diarrhœa, Colics, Coughs, Asthma, Cramp Rheumatism, Neuralgia, Cough, Hysteria, &c.

EXTRACTS FROM MEDICAL OPINIONS.

The Right Hon Earl Russell communicated to the College of Physicians and J T Davenport that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne.—See Lancet Dec 31, 1864.

From A Montgomery, Esq., late inspector of Hospitals, Bombay: Chlorodyne is a most valuable remedy for Neuralgia, Asthma and Dysentery. To it I fairly owe my restoration to health after eighteen months' severe suffering, and when other medicines had failed.

Dr Lowe, Medical Missionary in India reports [Dec 1865] that in nearly every case of Cholera in which Dr Collis Browne's Chlorodyne was administered the patient recovered.

Extract from Medical Times, Jan 10, 1866—Chlorodyne is prescribed by scores of orthodox remedical practitioners. Of course it would not thus be singularly popular did it not supply a want and fill a place.

Extract from the general Board of Health, London, as to its efficacy in Cholera.—So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases.

Beware of spurious and dangerous compounds sold as CHLORODYNE from which frequent fatal results have followed.

See leading article, Pharmaceutical Journal, Aug 1, 1869, which states that Dr J. Collis Browne was the inventor of Chlorodyni: that it is always right to use his preparation when Chlorodyne is ordered.

CAUTION—None genuine without the words "Dr J. Collis Browne" on the Government stamp. Overwhelming medical testimony accompanies each bottle.
